

MICRO-TOUCH[®] Plus

Essential Series

Latex, powder-free, examination glove with excellent tactile sensitivity and dexterity

This non-sterile glove provides a secure, comfortable fit due to the natural elastic properties of latex while the textured external surface provides a secure grip in wet or dry conditions. It is powder-free to help eliminate powder-related glove complications.

KEY FEATURES AND BENEFITS:

- Fully textured surface ensures a secure grip in wet or dry conditions and against slippage
- Inner polymer coating for ease of donning
- Excellent elasticity and memory for a more secure fit that provides greater comfort without bagginess
- 150-count packaging reduces waste

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

Recommended For

- Brief, low-risk examination procedures
- Environmentally friendly facilities

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.

MICRO-TOUCH[®] Plus

Essential Series
